ALLIES THREATEN GIVE POLAND MILITARY AID

**BRITISH PRESS IS
HINTING AT WAR
AS POLES DRIVEN
BACK ON WARSAW**

**Believed That Britain Has Sent
Ultimatum to Soviet
Government.**

**GERMANS AND RUSS
HAVE SECRET TREATY**

**Hungaria and Roumania Are on
the Verge of Intervention,
Reported.**

(International News Service)
PARIS, August 5.—It is understood at headquarters of the French army of occupation in Germany that orders have been given to begin the transportation of allied troops across Bavaria and Bohemia to Poland, said a Basle dispatch received here. At the foreign office at noon it was stated that nothing was known of any order for the sending of French troops to Poland.

The French ambassador at London is conferring with the British foreign secretary on the question of sending allied troops to Poland, the French foreign office revealed. The foreign office denied the report that the Russians have reached Miava.

(International News Service)
LONDON, Aug. 5.—Great Britain today began war preparations to intervene in behalf of Poland, according to the Evening News. Steps are being taken for the mobilization of the British navy, the newspaper stated. The government is considering the calling of volunteers for service in Poland.

(International News Service)
LONDON, August 5.—Smashing all Polish opposition, the Russian red army has advanced to within 30 miles of Warsaw, according to a wireless dispatch from Berlin.

The east Prussian frontier has been closed near Neidenburg, where the Russians are reported to have concentrated a considerable force of cavalry. The threat of allied military intervention to save Poland from complete annihilation loomed larger today.

The Daily Express says the British army council has made all arrangements to mobilize two army corps upon an hour's notice. All of the British newspapers hint that momentous events will hinge upon the outcome of the conference which Premier Lloyd George held yesterday with M. Krassin and M. Kamenoff, heads of the Bolshevik trade mission in London. It is reported, but without official confirmation, that Great Britain threatens to go to war against Russia unless the red army is stopped.

The Times openly charges that soviet Russia has concluded a secret treaty with Germany, the main provisions being: 1.—Russia to appropriate all of Poland's arms, ammunition and foodstuffs and railroad rolling stock without interference from Germany; 2.—After Poland is crushed, the Russians will "evacuate" Polish soil in favor of Germany.

The Daily Mail says that the latest communication sent by England to Moscow was couched in the language of an ultimatum. While the newspapers do not attempt to minimize the seriousness of the situation and the threat of a new European war, the Daily Telegraph expresses the belief that if armistice proceedings between Russia and Poland collapse, a conference of the Russian border states could still be held in London. This newspaper suggests that the collaboration of the United States be enlisted to help compose the quarrels of eastern Europe.

Hungaria and Roumania are on the verge of military intervention against the Russians; it was indicated by a dispatch from Vienna.

Great numbers of Polish refugees are pouring across the Polish frontier into Germany.

Italy, fearing entanglements in the eastern European war, is taking steps to prevent it. The following dispatch has been received: "It is believed that the Italian ambassador has requested the German government to arrange immediately for the withdrawal of German troops from the Polish frontier."

BRITISH CONSUL IS ORDERED TO PREVENT CABLE LAYING

**Trouble at Miami Averted By Instructions From
English Ambassador.**

(International News Service)
WASHINGTON, Aug. 5.—The British embassy has given the state department assurances that the British cable ship Colonia will not attempt to lay a cable to Miami, until this government has acted upon the request for permission to lay the cable.

(International News Service)
MIAMI, August 5.—Orders to board the cable ship Colonia on her arrival here and take her outside American waters were received here this morning by the British consul from the British ambassador at Washington. The U. S. Destroyer No. 155 is endeavoring to communicate with the Colonia, which is approaching this coast with the intent of laying a cable from Miami to the Barbadoes for the Western Union Telegraph Company. Laying of the cable has been ordered postponed until a permit has been secured from the U. S. Government, and destroyers were sent here to prevent the landing of the cable.

NAMIE'S FATE IN HANDS OF JURORS

CHARGE JUST BEFORE NOON
TODAY

The fate of Charlie Namie, charged with shooting to death Ed Clark, a negro, was still in the hands of the jury at 2:30 o'clock this afternoon. Judge O. Kyle completed his charge shortly before noon, following the final arguments by Attorney Callahan for the defense and Solicitor D. C. Almon for the state. The evidence was concluded yesterday afternoon. The case has attracted wide attention.

FROM BANK CLERK TO OWNER OF MILLIONS WITHIN ONE YEAR

(By International News Service)

BOSTON, Aug. 5.—Charles Ponzi, ten months ago a bank clerk struggling on a meagre salary, has given the financial world a jolt. Not only has Ponzi rolled up a fortune, estimated today at \$8,500,000, but he is paying investors in his proposition 50 per cent in forty-five days on any amount invested. Investors who see their money doubled are mostly working people.

Here is how he does it: Ponzi gives no other security than his personal note. He buys international coupons exchangeable into postage stamps, buying where exchange rates make \$1 of American currency worth \$4 in a foreign country. How he converts them into cash is his secret, he says.

Federal, State and city investigators have looked into Ponzi's affairs, but have failed to discover anything illegal. Ponzi is thirty-eight years old and was born in Parma, Italy.

He has bought the banking house he worked for, part of a trust company, several business blocks, two estates and several motor cars. He has established offices for his proposition in all New England cities and in Bayonne and Clifton, N. J.

DAYTON, Aug. 5.—The "Magna Vox," or sound amplifier, through which it is expected that Governor Cox shall speak to more than 100,000 persons at the notification ceremonies at the fair grounds on Saturday is being tested out today.

George White, democratic national chairman, is on his way here to consult with Governor Cox on campaign arrangements.

Governor Cox conferred last night with Mrs. Abby Scott Baker on the woman's suffrage situation in Tennessee. Mrs. Baker told the Governor that the chances of ratification by the Tennessee legislature are practically nil unless some drastic action is taken. Mr. Cox will make announcement of his plans after seeing Chairman White.

ASSAULT WITH AN INTENT TO MURDER CHARGED TO NEGRO WHO SHOT A CHILD

**Indictment Returned Against
Andy Robinson Now Held
in Huntsville Jail.**

**TWO COMMISSIONERS
ACCUSED OF NEGLECT**

**Report Alleged County Machinery
Used for Their Own
Benefit.**

Sheriff J. V. May and deputies today were busy with the 116 indictments returned by the Morgan County grand jury which adjourned yesterday afternoon at 2:30 after having been in session a week and a half. The number of true bills found by the jury is one of the largest totals in court annals in this county.

The true bills included an indictment against Andy Robinson, negro, charged with assault with intent to murder on the person of little Reese Lamon, 3 year old son of Mr. and Mrs. S. F. Lamon, of Flint. No bill was found against Robinson's son. Robinson is now held for safekeeping in the Madison County jail.

The grand jury's written report follows:

Honorable O. Kyle, Judge Eighth Judicial Circuit:

We, your grand jury, empanelled at this term of Circuit court, having completed our labors, make this our final report.

We have docketed 158 cases and have returned into court 116 true bills.

We have examined the condition of the county jail and find it clean and safe for the keeping of prisoners. We find that the prisoners are well cared for, and are well fed, according to law. We have examined the condition of the county poor house and found it well kept. We have examined the bonds of the county officials; the fee books of all officers which under the law it is our duty to examine, and find the bonds sufficient and no illegal fees charged.

We have closely examined the state examiner's report on the officials of this county and find that while some of them are reported to be short in their accounts, it is only a technical shortage and we are informed that all of these shortages have either been made good by officials or it has been allowed by the state auditor.

We have made a thorough investigation into the conduct of W. B. McCulloch and John Foote, county commissioners. We find that they are negligent in the discharge of their duties; that they allow to be used and use for their own benefit, certain parts of the county machinery. We find that they allow the drivers of the county trucks to let the trucks stand idle with engines running for hours at a time. We find that W. B. McCulloch is furnishing rock for the use of the county "at an excessive price," which a commissioner is not allowed to do, and also find that he has sub-rented parts of the county's machinery to outside contractors and that same are being very badly handled. We also found that one of the county tractors has been used for plowing purposes by W. B. McCulloch on his farm. We recommend the discontinuance thereof.

We have made an investigation as to the condition of the public roads of this county and found them all to be in a bad condition. We also found that the road from Hartselle to Danville is almost impassable.

We have made an investigation of the question of profiteering in this county. We find some irregularities and differences in the prices of different articles of the necessities of life, and are convinced that if there be profiteering, it is not on the necessities of life, but on the so-called luxuries of life.

We have made a thorough investigation into all indictable offenses triable in this county, and returned indictments where, in our judgment, (Continued on Page two)

LUDENDORFF AS AN AID

From the Pittsburg Dispatch.

The proposition of Gen. Ludendorff to organize an army of 1,500,000 men to reinforce Poland and the allied forces, to hold back the red drive need not be taken seriously. General Ludendorff would find it phenomenally difficult, if not impossible, to organize an army of 1,500,000 since that would involve the consent and co-operation of the German government, which has already proclaimed its neutrality as between Poland and Russia. In the second place, it is unthinkable that the allied premiers will exchange a return of territory for Ludendorff's services, as that would bring about modifications in the treaty which the allies are not prepared to order, in view of the probability that the change might force a whole new treaty. Perhaps the strongest reason of all is that Ludendorff has no intention of trying to raise an army of 1,500,000 men, or any other number, to beat back the Russian forces advancing towards German territory.

From what is well known of the Ludendorff psychology, it is fair to assume that the former quartermaster general of the Hohenzollern military machine simply took his own method of informing the allied premiers of the force needed to slow up the Russian progress. It would be no overpowering surprise if, in case the Russians continue their westward sweep and march across the German frontier, Ludendorff finds himself in command of a Germanic section of the red armies. He still belongs to the monarchistic school, which simultaneously mourns the downfall of militarism and hates the allied nations. He still holds the idea that if Germany cannot wring certain concessions from the treaty-makers, German patriotism demands that the conquerors get as little from their victory as possible—nothing, if circumstances permit. The appearance of the head of the Russian armies on the German frontier may be one of the circumstances. Another may be Ludendorff throwing himself into the fray with national frenzy—but not on the side of the allies.

ELECTION METHODS IN TENNESSEE

Alabamians, accustomed to strenuous politics and the occasional resort to underhand methods, have been appalled at the open affrontery displayed in the campaigning that has just closed in Tennessee. Newspapers, political newspapers, if you please—have printed supposed news items in which the gravest charges have been made. For the sake of decency, many of these charges, if true, should never have been aired in public. For the sake of the Democratic party, a battle for a gubernatorial nomination should never have been waged on so low a plane nor should such rancor have been aroused. One electioneering slogan, in fact, has been that if this or that candidate were nominated that the republicans would elect the next governor of the state. And there is much foundation for this assumption. The methods of campaigning employed have made this very thing possible.

And what is to be gained by the airing of this dirty linen? Absolutely nothing. The partisans of the candidate maligned brand as slanders any exposures or alleged exposures of his weaknesses. They do not waver in their support, nor do they believe that in the one camp there is concentrated all virtue and all wisdom. The outside world, however, perhaps subscribing for but one Nashville newspaper, gets a distorted view of one family closet and jumps to the conclusion that there is very much that is rotten in this particular Denmark. The good name and the prestige of the commonwealth suffers. The world at large does not realize that it is the victim of peculiar publicity methods. It does not stop to think that those who hold up their hands in holy horror at certain acts of criminal depravity never go before a grand jury and ask indictments. Or in other words, these scurrilous attacks are not prompted by a desire for the elevation of politics, but for the degradation of some aspirant for office who blocks the way.

It is unfortunately true that the Nashville press is often guilty of violating that newspaper standard which calls for impartiality and fairness in the news columns and which insists that opinions be expressed editorially. This ignoring of professional ethics is largely responsible for a petted brand of campaign propa-

ganda that is a stench in the nostrils of a proud and respectable people.

The Albany (Ala.) Herald has made a successful test of the delivery of its paper to two post offices by airplane, at the rate of eighty miles an hour.—American Press.

The American Press overlooks the fact that the Albany Herald is published at Albany, Ga. Knowing the eagerness of Daily subscribers to get their afternoon paper, it very naturally jumped at the conclusion that they had insisted on the installation of aeroplane delivery.

JUST IN PASSING**"SOX" IN BUFFALO**

Walter H. Sorber, who twenty years ago was a member of Company I, 65th infantry, and one of the best sprinters in these parts, is visiting John Maxwell, his first sergeant at that time. Sorber is now the chief of the fire department at Albany, Ala., where he settled after retiring from baseball.

Sorber, with other firemen of the South, attended the firemen's convention at Toronto. He said he noticed a big growth in manufacturing along the river front since the days he lived here. However, he is in love with his Southern home, which he said was a thriving city of 15,000 population.—Buffalo Express.

CONSIDERS STAYING OUT

The other day Gil Draper, who has been assisting his father, Circuit Court Clerk Draper, since getting out of the Navy about a year ago, received a letter from the Navy recruiting station at Birmingham, asking him to re-enlist. Gil has a sense of humor and in reply to advice to try to remain in civilian life a while longer and put off the reenlistment for a time, sarcastically declared "You know I have been considering that very thing."

LIVES CHIEFLY IN MEMORIES

Sleepy Little Pennsylvania Community Has But One Really Busy Season in the Year.

Within the limits of the city of Philadelphia, yet separate from the municipality proper, is the little village of Bustleton. Unlike its name, it is a sleepy community, peopled mostly by retired farmers.

Bustleton is replete with historic lore. Old Bill Tilyer's Union hotel is a relic of the days when British and colonial troops overran the country. One sleeping chamber in the ancient inn contains a great four-poster bed in which, so the historians of the village say, once slept "Mad Anthony" Wayne.

Stories of midnight raids by British cavalry patrols, duels fought between the young bloods of the Quaker city in a grove in back of the inn, and ghosts of colonial soldiers stalking through the long halls of the structure, are told with great gusto by Bill Tilyer. The Union hotel has been handed down from father to son in the Tilyer family for nearly two centuries.

But there is one time in the year when Bustleton really bustles. That is in the month of September, when the mushroom season opens. At sunrise dozens of men and boys may be seen plodding through the dew-laden pasture fields, armed with buckets and baskets. For the fertile fields in and around Bustleton yield many bushels of mushrooms, which are sold at the various markets in Philadelphia.

Profane Expression.

Do not think you are profane when you say that you "don't care a dam." The truth is that a dam was the smallest Hindu coin at a time when the English were invading India, and the expression that one "didn't give a dam" naturally sprang up to mean that a matter was of next to no importance.

To the People of Decatur

What is a Child's Life Worth?

Houses, furnishings and automobiles are worth insuring against fire.

What about the life of a child?

"Many Children Lose Their Lives in Blankville School Fire!" Too often are we shocked by such startling headlines. Too often are we appalled by the gruesome accounts of school fires where lives were lost which could have been saved through adequate means of escape.

Figured in dollars and cents, old fashioned, makeshift fire escapes may cost less—but figured in lives their toll in most cases is terrible.

The Kirker-Bender Fire Escape has never cost a life.

It is made to save lives—not money. It is easiest, safest, surest means of escape from fire ever devised. In a few minutes all the occupants of a school, hospital or any other building can escape in absolute safety.

Once in a Kirker-Bender, a quick, easy, orderly escape down the smooth, gently sloping spiral slide is assured.

School buildings and other institutions which are not absolutely fireproof should, in justice to those who occupy them, be equipped with the Kirker-Bender.

MUNICIPAL ARGUMENT OVER; COIN IS FLIPPED

(International News Service) KANSAS CITY, Kan., August 5.—The "flip" of a coin saved this city \$500 after futile efforts of Mayor Mundenhall and Secretary Harry, of the Wyandotte County Gas Company, to compromise a bill owed by the city for several years.

After a long conference the gas company's bill, originally \$42,000, was reduced to \$35,500. The city still balked and demanded the bill be made an even \$35,000.

"We are only \$500 apart on a settlement. Let's flip a penny for it," suggested the Mayor.

"You're or," said the secretary.

"Heads for the city," said the Mayor.

"The company will take tails," said Berry.

The coin, a new Lincoln one-cent piece, spun in the air. A tinkle, heads won.

K. C. TO TAKE GIANT OLD GLORY TO FRANCE

(International News Service) NEW YORK, August 5.—The largest American flag ever flown outside the United States will be taken to France by the Knights of Columbus on their pilgrimage, which leaves New York on August 7 under the leadership of Supreme Knight Flaherty.

The flag, of silk, measures 36 x 46 feet. It has been lent to the Knights of Columbus by a prominent New Yorker for the unveiling of the K. of C. statue of Lafayette by Marshall Foch in Metz on August 21.

Assault With An Intent to Murder

(Continued from Page 1.)

the evidence was sufficient.

We are thoroughly of the opinion that whisky is being sold in all parts of the county, more so than at any other time in the last 2 or 3 years. We have summoned a great number of witnesses and have tried to get at the root of this evil, but only have been able to find a few bills.

We also find that the officers of the sheriff's force and officers claiming to be working with the state department have been negligently in the discharge of their duties.

It being brought to the attention of the grand jury that the only room that is provided for use of the Circuit and Morgan County court has heretofore been used by the county health officers to the great inconvenience of the court while in session. It is the opinion of the grand jury that this one jury room should be preserved by the probate judge and court of county commissioners at all times for the use of said courts, and that to other officials, state or county, be permitted to use said rooms for any purposes whatever.

It has been brought to the grand jury's attention, that the body of one Ned Nelson, who was killed in this county several years ago, was only partially buried, and that certain parts of his body are still visible to persons passing by. We therefore recommend that his proper party be notified and made to properly bury his body.

We have given a week's time to the investigation of these matters and have done our best, and we hope that the true bills returned will be of benefit to the people of Morgan County. We desire to thank your honor for your able and exhaustive charge which we know was of benefit to us in our investigations and feel sure that it will bear fruit in the near future. We desire to thank the other officials for their punctual attendance and their advice given us upon our labors. All of which is respectfully submitted.

Lesson In Dietetics.

What bread needs to make it a perfect food—a perfect food is that which contains protein, carbohydrates, and fat in certain definite proportions—is something with fat in it. Hence bread "and butter," and bread "and dripping," and bread "and cheese." Pork and beans pair quite properly, because the beans supply the absent protein. When you eat beef and potatoes, or roast beef and Yorkshire pudding, the pairing makes a perfect food. The pairing of condiments is not a matter of taste alone. Cabbage is peppered because it was discovered that pepper discounted the excessive action of greenstuff on the bowels. Mustard goes with beef, but not with mutton, because mutton is much more easily digested than beef, and mustard is a first-class digester.—Montreal Herald.

drawal of Italian troops from the east Prussian plebiscite territory to prevent Russo-Italian incidents."

Meanwhile, allied military officials today admit they are still puzzled as to how troops could be sent into Poland. The Russian army is closing the inlet between Warsaw and Dantzig, the only free artery of traffic between Poland and the outside world. Germany has proclaimed neutrality and announces she will not allow allied troops to cross her territory into Poland.

GERMANS TO STRIKE

This information was contained in a communication received at the state department from Secretary White of the American legation at Warsaw.

Premier Lloyd George promised the house of commons to make a statement on the military and naval action it may be necessary for Great Britain to take.

Source of Tears.

"Where do tears come from?" In each eye there is a small duct called the tear duct. This little gland is constantly making tears and washing the eye. The eye "winkers" are the brushes that wash the particles of dust away from the delicate portions of the eye. When we cry the tear gland "works overtime" sending one tear chasing another, like rain drops on the window pane.

Bitter Orange Perfume.

The basis of many of the choicest perfumes is oil of petit-grain. This is produced from the leaves of a small bitter orange that grows in vast quantities in Paraguay. The leaves are boiled, the vapor distilled and the oil skimmed off. The peel of this same orange is the main ingredient of curacao.

Oil Creaking Shoes.

Have you a pair of shoes that take creaking spells much too frequently for your comfort and pleasure? If you have, simply put a small quantity of linseed oil in a shallow dish or pan and stand the shoe in it for a few hours. This treatment will not only effectually prevent the shoes from continuing in their creaking ways, but it will also make the soles last longer.

Stomach is quick to upset—Dr. Caldwell's Syrup Pepsin will bring prompt relief and comfort

THE depressing heat makes many women careless of their health. The housework becomes extra tiresome and the hot kitchen adds to their discomfort. They eat cold foods and iced drinks with the result that the stomach is soon upset, and constipation follows indigestion.

It is well to know that there is a remedy that brings quick relief. It is called Dr. Caldwell's Syrup Pepsin, and you can find it in any drug store. It is a combination of simple laxative herbs with pepsin that acts on the digestive organs and soon rids the bowels of its accumulation. Take a spoonful of Syrup Pepsin at night and the congestion, headache and feverishness will be gone in the morning. You will then stand the heat with comfort.

There are thousands of women in this country who do not use anything else in these emergencies but Dr. Caldwell's Syrup Pepsin. Miss Bart, of 1045 Watkins St., Grand Rapids, Mich., relies entirely on Syrup Pepsin, and she personally knows many others who do. The medicines she formerly took for constipation made her sick to the stomach, but Syrup Pepsin is so mild and acts so gently and without griping that she finds pleasure in using it.

Dr. Caldwell's Syrup Pepsin can be given to infants with entire safety. It is a truly wonderful household medicine, and a bottle should be in every home.

FREE Millions of people of all ages suffer from occasional or chronic constipation. Let them send name and address to Dr. W. B. Caldwell, 512 Washington St., Monticello, Ill., for a free sample bottle of his wonderful Syrup Pepsin. 8 million bottles were bought at drug stores last year, the largest sale in the world.

HITS AND MISSES

LOOKOUT! LAWRENCEBURG

To have the honor of bringing home the bacon in the semipro field is something that is new to all in Tennessee and Alabama except Lawrenceburg. This outfit has captured in nearly every jamboree that they waded into and it didn't seem for a time that anyone would be able to overtake them at their rapid gate. However, as the old saying goes you will meet your match some day and so it was with the little town champs.

Waverly, Tennessee proved themselves the better when they took a series from Lawrenceburg in their own lot and all Tennessee rose up in silent tribute to these warriors of the fenced arena.

Now what we started to say was that this same Waverly crew took a jaunt over to Columbia when they saw that Lawrenceburg had such an easy time in the two contests that they fought there. Columbia lost both games to Lawrenceburg via the shut out route and for a time it looked as if there was no hope for a deliverer from the plague so long traveling under the Cook regime.

But here's the other side of the affair. Columbia has been playing Waverly this week and took three out of three on their home grounds. This will make 'um sit up and take notice after Waverly was touted the best yet. Columbia is now under the leadership of "Red" Smith since J. Cody decided that it was a useless job to try to scrape up a winner out of the scrap heap. Smith is veteran of the six year ago campaigns, when Columbia was at her best.

GIANTS AND WHITE SOX SET THE PACE

Our mind now returns to the pasture after delving in the trivial matters of Semipro circles. The foremost in the minds of all today is that of the stride the Giants and White Sox have started in their respective leagues. The Giants had some cause for their sport and this is what started them. John McGraw and his worthy cohorts figured out a plot to spring on his diamond dusters. The plan went this way. If the Giants took three out of four from the Reds from Cincinnati they were to receive a bonus of \$1000 each. Well, they did and each little Giant is now just that much ahead. The Reds have been the goats of the National for the past week for they have lost going and coming and the Giants are trying to reach them for second berth before the slump leaves them.

The White Sox are fighting for Gleason and Chicago alone and no bonus has been offered them at all. Their fight has been with the Yanks for the past week and they have also taken three and dropped one in the national sport. This series of wins brings them face to face with the Yanks and they are now within one point of second place at the top of the pile. What's just happened to the Yanks none knows but the Cleveland Indians and the Brooklyn Dodgers are faring little better and the tail enders and cellar Champs are cutting up something fierce. The pennant chase seems to be within the grasp of both the White Sox and the Giants now but it's a long way to the rope yet and the winner won't be decided until October.

IN OUR OWN BLOCK

Elkmont arrived on the noon train and are fit to fight within an inch of their lives. They look very well on the street, but that doesn't speak very well for them on the pathways for yuh cawn't always tell, yuh know. Manager Thompson has Barnes slated for duty this afternoon and it looks as if the fight will stay here for once. The home people have had a lot of hard luck this year and have been unable to annex as many times as the local fans would like to see them. Steadman and Halbrooks will also be in harness for the fray today and it looks cloudy for the mountaineers. If they can just keep "Chi" McGarr from grabbing a bludgeon they are safe for he's a dangerous man with the mace work. "Home runs a specialty" is his motto.

MADLAINE TRAVERSE IN "SMART SET" PLAY

PRINCESS, THURSDAY
"The Tattlers," picturing present-day life in the smart set, produced by William Fox and featuring Madlaine Traverse, will open an engagement at the Princess Theatre on Thursday.

Divorce, the absorbing problem of the age, is the theme around which the fabric of this play is woven. Miss Traverse, the "empress of stormy emotion," has found here, it is said, a vehicle that is worthy of her most forceful acting. Intense moments abound. The play is declared to be a winner.

The supporting cast includes Howard Scott, Jack Rollens, Ben Deely, Edwin Booth Tilton, Genevieve Blinn, Eleanor Hancock, Corcoran Kirkham and Frank Whitson. Henry Clifford Colwell wrote the story, the scenario was written by Denison Clift, and the play was directed by Howard M. Mitchell.

MARY MILES MINTER

PRINCESS FRIDAY
Mary Miles Minter, Star of the Realart Picture, "Judy of Rogues Harbor," which will be shown at the Princess Theatre on Friday, is afforded every opportunity to display her gifted ability and matured artistry in this well-known story, adapted from Grace Miller White's book. The athletic young star enters in the tense scenes and exciting situations with all the vim, vigor, verve and vivacity of her girlhood. She is at home in many scenes calling upon her physical powers and historic ability. No expense has been spared to perfect every detail to produce a photoplay that will be hugely enjoyed.

Plants Receive Wireless.

One of the most extraordinary recent discoveries in regard to plants is that they are "conscious" of wireless messages, says the Radio Amateur News. Experts who have experimented in the matter declare that plants receive wireless messages, and that the response can be detected by the newer electrical instruments. The latter are so sensitive that they can detect and register the minutest internal movements in plants.

HER RESISTANCE WAS BROKEN DOWN

Stomach trouble caused great suffering. Breath was short, gas filled her up. The herb medicine Dreco gave relief.

"For the past five years I've suffered pain that no one can accurately describe," says Mrs. Rebecca Vaughan of 17 Grundy Street, Montgomery, Ala.

"At times I felt I could not stand it any longer, my stomach would fill up with gas and I thought my breath was cut off. No one can imagine what I went through. At times I could not lie in bed but would sit up all night long, even then the pains were awful, and I have had to call in a doctor to give me a hypodermic injection to relieve me.

"I have tried every medicine that was recommended to give relief in cases like mine, but none overcame my troubles. When Dreco came here I determined to try it, but I was so weak I did not believe I could last long. Thanks to this wonderful medicine, it has given me new life. Dreco has relieved my intense suffering, I am gradually regaining my strength. My bowels act regularly now. I am sleeping well, my appetite is good, and my nerves are quieted. I have taken two bottles of Dreco, but intend to take several more, my husband and brother both join in praising Dreco, knowing the benefits I have received.

All druggists now sell Dreco and it is being especially introduced in Albany by Albany Drug Co., in Decatur by Hilda Drug Co.—Advertisement.

WIDOW'S WEEDS.

TEARS, BROUGHT GIRL 15, PLENTY CASH

(International News Service.) BROOKLYN, Aug. 4.—"Panhandling" by a fifteen-year-old girl attracted in a widow's garb was the story that came to light in the Brooklyn Children's Court with the arraignment of Emily Shipps.

Emily, who is large for her age, worked in a law office. She made copies of divorce and separation decrees and of a death certificate. Garbed in black, she rode about the city for days in the elevated trains and collected enough to live comfortably by stories she told to trainmen.

To one she said she was a divorcee, supporting herself and a child; to another that she was separated from her husband. She told others she was mourning the death of her child, had wandered away in grief and had no money to get home. She showed the bogus papers in each instance. Justice Wilkin held her for investigation.

True Lotus and the Lotus of Poetry.

Neither the true lotus of ancient Egypt nor the sacred lotus of the Orient must be confused with the plant referred to in Tennyson's poem, which was the jujube, a prickly shrub bearing fruits resembling a plum or date, and much used as a dessert. Homer describes the wandering Ulysses as arriving at the coast of Libya, where many of his sailors partook of the jujube fruits and immediately lost their desire to return to home and friends. —Journal of the New York Botanical Gardens.

Secret of Leadership.

The secret of the world's leadership is right in our keeping. To understand men we look at ourselves. To know what is without, we must study what is within. To lead others we must lead ourselves. Our power will soon grow. So will our influence.—Exchange.

CAR TRACKS WEEP TIES.

The severest wear on solid tires is caused by driving on the car tracks, according to an official of a rubber company, quoted by the Scientific American. He says that when on the tracks most of the load is concentrated on a limited portion of the tread, so that it is overloaded and quickly worn away, besides, a sharp pointed frog may actually cut a piece off the tire just as a knife would.

TATTOOING AS A FINE ART

It Reached Its Highest Development in the Marquesas Islands of the South Seas.

Tattooing is an art so old that its origin is lost to historical records, having been practiced when the cave-men went out to club their fellows. In the Marquesas Islands, the most distant and most mysterious of South sea archipelagos, tattooing reached its highest development and there it was the most beautiful form of art known.

For a man in the Marquesas to lack the tattooed stars of terror upon his face and to have a bare countenance upon his face was to be a poltroon and despised by the whole tribe. Frederick O'Brien says in the Century that to achieve a fairly complete picture on one's body meant many months of intense suffering and the expenditure of much wealth.

When white men were cast by shipwreck in the islands of the far Pacific or fled from duty on whalers or warships and sought to stay among the Marquesans they accepted to the honored customs of their hosts and adopted their facial adornment. Once the curious ink of the tattooer has gotten into the skin it is there forever and can never be erased, like the pits of smallpox. The white men, therefore, of Europe and America never again returned to their old homes after settling among these Marquesans and having their faces tattooed.

EGYPTIAN BEADS MOVE BED

Remarkable Manifestations Said to Have Been Made by Ancient Necklaces in Edinburgh.

Some remarkable manifestations, states the Scotsman, have occurred in Edinburgh in association with an ancient Egyptian necklace. The present owner of the necklace, who lives in the west end of Edinburgh, received it from Cairo at the end of 1913.

Recently she decided to get rid of it and threw it into a waste paper basket. That night when near the basket she was startled by the distinct feeling of a hand clutching at her wrist. She afterward heard sounds from the basket as a mouse moving. Examination revealed only waste paper and the glass beads.

She gave the beads to her brother, who on going to bed placed them on the pillow near his head. The necklace seemed to be moved on the pillow during the night by some unseen agency. A night or two later he again put the beads on his bed. He was roused from his sleep by the bed being moved from side to side. He afterward heard the necklace producing a rustling movement. The following night he slept soundly with the necklace in the room. At four o'clock next morning he was awakened by the bed again shaking. Other persons say they had similar experiences with the beads.

Spell of the Witch Doctor.

In the twentieth century, according to the report of forward movement survey, there are approximately 120 million people in Africa held in abject fear through the hundreds of thousands of witch doctors who alone are believed to have the power of "spelling out" the evil spirits. The theory of the African native regarding disease is that an enemy casts a spell which enters the body and it must either be expelled out or cast out and this is accomplished by the use of charms which often kill before they have the opportunity of proving their curative powers. The natives of South Africa, the survey finds, depend entirely on witch doctors and herb doctors. For 84 million native people there are only twenty-three missionary doctors and sixteen nurses. Scattered among the millions, this little band of workers accomplishes wonders. But the sway of the witch doctors is practically unaffected.

Electric Incubator.

The electric incubator is said to be much safer, surer and more economical than the oil-heated apparatus. Current entering the incubator passes through resistance elements in the top of the box; these are arranged to distribute the heat evenly over the 75 eggs below. Double insulating walls prevent the escape of heat, while a thermostat keeps temperature constant. Ventilation is likewise automatic.

Over-Education a Peril?

Have you ever read what Benin said of over-education? Well, here it is: "A great danger impends because the accumulation of knowledge and power is unlimited, while the human intellect does not expand. There is reason to fear that the human brain may collapse under its own burden; that there may come a moment when its very progress spells its ultimate decadence. It will be like an equation that carries its limits within its own statements."—Los Angeles Times.

About Town

Tabulated reports for May, made public at the shops, show only one accident for that month. C. W. Matthews, as chairman of the safety first committee, has received a letter of congratulation from Superintendent of Machinery C. F. Giles, commending this splendid record. The director of safety for the entire system, R. L. Pilling, has recently had a notice posted, in which he asks that the spirit of safety permeate the entire organization of the L. & N.

Samuel E. Roper, system craft chairman, is in Atlantic City, N. Y. on business for his craft.

Charles Erwood, of the car department, expects to take a trip to Washington, D. C. early in September.

A. T. Beaty, of the boiler shop, has returned to work, after a long illness with fever.

Rural Brothers, who has had fever for some weeks, has suffered a relapse.

W. G. Anderson, and family will motor to Fayette, Tenn. the last of this week for a visit to home folks and expect to return about the 15th.

M. C. Giles, who has had a long spell with the rheumatism, has returned to work.

W. H. Ackoof, of the car department, has returned, after an extended visit to Cleveland and Cincinnati.

J. R. Johnson and family have returned after a visit to Birmingham.

Mr. Little, of the car repairers, has returned to work after a visit to relatives in Georgia.

B. M. Thompson expects to leave soon for a visit to Sherman, Texas.

Mack Harmon and family have returned from a visit to Pulaski.

C. A. Hitch, John Jenkins, Thomas Hodson, James C. Hoesapple, Raymond McCluskey, Percy and Roy Newsome, Robert N. Nelson, Charles R. and Lucian P. Royer, Isaac Sheer and others are among the L. & N. shop force receiving advanced Masonic degrees at the recent Albany convocation.

C. R. Hall, of the machine shop, has returned to work after a month's visit to Chicago and other cities in Illinois. Mr. Hall said he made little inquiry as to conditions where he had been, but noticed that the crops and especially the fruit crops were good.

D. C. Vohlers, directing shop foreman, spent some weeks with his relatives in and around Detroit. "The people of this country have either got to eat less, or take care of their crops better," declared Mr. Vohlers. "I saw wheat standing in shocks that was rotting for the lack of men to thresh it. The grass had grown up around the wheat and the grass needed cutting. I went across the road, from my brother-in-law's where he helped a neighbor with his wheat threshing, and must of the threshing was done by women as there were very few men to be had. They were offering as high as \$110.00 a month and board for farm labor, with few takers, and in some places I was told they were offering as high as \$125.00 and board." As for the railroad situation, I did not see any shops working over the 8 hour limit, and the yards around Detroit were literally filled with cars that he needed to be moved. The grass was growing up around the cars. But everywhere I went the crops seemed good, and if too much is not lost before gathering them every thing may work out all right."

Something Different

Valier's Dainty Flour bakes delicious, wholesome things with a flavor that cannot be bought—things that express your own individuality and give your luncheons character. It can always be relied upon, and produces results impossible to obtain with flour of less exceptional quality.

Valier's Dainty Flour

Slowly from the choicest part of the soft winter wheat grown. It retains baking qualities of that exceptional kind and is ground to remarkable fineness. Each flour costs slightly more in bulk but it costs less on the table. There is no waste to count as waste, and it requires less lard.

Order a sack of Dainty for your next luncheon.

LOCALS HAMMER OUT VICTORY OVER ELKMONT'S SQUAD

'Tis a long lane indeed that has no turning. The local baseball team reached the bend in the road yesterday and, tiring of having games entered on the debit side of the ledger, fell upon the slants of Mr. Horton, of Elkmont, and hammered to 4 victory. Graham rounded to form for the first time this season and after the second inning, when Elkmont bunched three hits, held the visitors in check.

While almost devoid of fielding features, with the exception of a couple of scintillating plays by Halbrooks at short, the game furnished one of the weirdest baserunning stunts ever seen on the local diamond. In the seventh the locals filled the bases with only one down. F. Barnes was at third, Steadman at second and Watkins on first. Thompson hit to short, but Barnes suffered a lapse of memory and forgot the bases were loaded. Instead of breaking for home, he stood in his tracks. Steadman, rushing to third, passed Barnes and kept right on home. H. Morris threw to Campbell, but in some manner the ball got by him, rolling toward the bleachers. His ump called both Barnes and Steadman out, the former being forced by Steadman and the latter out for interference.

The same teams meet again this afternoon when Barnes probably will work for the locals.

The box score follows:

Elmont	AB	R	H	PO	A	E
Campbell, 3b,	5	0	0	3	2	2
